

INV-1

FILTER-X · PO-1

Invoiced 10 FILTER-X	Delivery notes 2 DN-1 + DN-2	Order PO-1
--	--	---------------------------------

what this document says

Record	Description	Quantity
INV-1	Invoice for FILTER-X, billed against DN-1 + DN-2.	10

what it does not say

Quantities only. The exercise dataset carries no prices, so none appear here and none were invented for this document. An invoice states what the supplier billed; it does not know what was counted in at the bay, or what arrived damaged.

◆ Simulated document

Generated by the C04 prototype to stand in for a scan the facilitator would otherwise hand over. Nothing external was executed: no supplier was contacted, no inventory was updated and no accounting entry was made.
